INLAND WATERWAYS

Accidents, Incidents and Near Misses

What is an Accident, Incident and Near Miss?

Accident; These are occurrences that results in an injury or ill health. These are easily identifiable by needing to use something within the first aid kit or being taken to A&E.

Incident; An event that does not cause harm to a person but where a piece of equipment i.e. van, excavator hired kit etc has been damaged in any way leading to repairs.

Near Miss; An event that, while not causing harm, has the potential to cause injury or ill health e.g. tools and materials being left unsafe or working unsafely.

Reporting Procedure:

Contained within the flight case and in the van bulkheads you will be able to find an Accident Report Form and Safety Report Card. For any accidents please fill in the accident report form and for near misses and incidents, the safety report card. It is important to fill in these forms with **plenty of details** leading up to, during and after the event. This helps IWA identify trends and continually improve our safeguarding procedures. Important details to include are: person(s) involved, time, date, weather conditions, locations and a detailed explanation (can include diagrams) of the event including injuries and actions taken. Please fill these out as close to the time of the event as possible. When completed pass it on to the work party leader to send off to IWA.

Where to send my reports?

All reports must be sent back to WRG HO. From here head office will sort out insurance, logistics and the HSE. Please remain available to be contacted to further discuss the reports.

Please post to the following address:

The Inland Waterways Association Unit 16B, Chiltern Court, Asheridge Road, CHESHAM, HP5 2PX

Key points:

- Only need to fill in one type of report for each event.
- Be detailed in your report this could be looked at by someone not as familiar with the site or job as you!
- Inform the right people including the work party leader, landowner and lead organisation.
